EXPERIENCE

DCFemTech's 'Hack for Good' => Code for DC: Washington Area Bicyclist Association Map Project
Front-End Team Member

June 2016-Present
Washington, DC

- Drew wireframes and user story. Constructed Photoshop mockup to display new map in existing website
- Coded a drop-down menu in HTML for the map
- Manipulated a Mapbox Maki SVG icon to create a map marker for address searches. Converted into JavaScript
- Added UI changes: header, title, map description, credits, logo, and menu adjustments
- My branch: <https://github.com/DCFemTech/hackforgood-waba-map/tree/front-end-changes>

Department of Defense Education Activity:
Office Automation Assistant

June 2014-September 2014, March 2015-June 2015
Alexandria, VA

- Designed print and digital assets for headquarters and DoDEA's 190 schools to display agency initiatives and commemorations.
- Learned Adobe Illustrator on the job to deliver quality content on time, and gained enough proficiency to put the department several months ahead of schedule by the end of both internships.
- Served as a photographer to provide supplementary material for news and media output, keeping the DoDEA Flickr up-to-date.

JRC Integrated Systems, Inc.:
Intern

February 2015-March 2015
Washington DC

- Drew up potential office reconfigurations for the upcoming cubicle replacement, working around existing constraints while satisfying the needs of the new plans.
- Accompanied the architect to the office showroom, assisted in choosing office setups, furniture, and materials.

James O. McGhee Architects:
Architecture Intern

May 2012-August 2012
Fredericksburg, VA

- Edited plans in AutoCAD, assisted in solving design problems, attended client meetings with the architect.

EDUCATION

University of Florida
Bachelor of Design, Architecture

May 2014
Gainesville, FL

AFFILIATIONS

- Women Who Code DC, Hear Me Code, Code for DC, Phi Mu Fraternity, DC Phi Mu Alumni Group (member)
